BOSTON Safe Deposit and Trust Co.

87 MILK STREET, CORNER OF CONGRESS STREET,
POST-OFFICE SQUARE.

This Company was incorporated in 1865. Its vaults, built in 1873-5, are absolutely fire-proof and burglar proof. They cover an area of about 3,000 square feet, are surrounded by two walls of masonry and over five inches thickness of metal. The Safes are protected by three burglar-proof doors, requiring three different officers to unlock them. These doors have Chronometer Locks, and Electric Covers, which signal for the police if in any way tampered with. Safes in these vaults are rented at from \$10.00 to \$150.00 a year, according to size. As the renter holds the only keys to his safe in existence, he continues to be the custodian of his own property, and he alone, or his duly appointed deputy, has access to it.

The Company receives on storage for safe-keeping, government bonds and other securities, silver-ware, jewelry, works of art, and other valuables.

FRENCH

Curling and Cleansing
BY OUR

FEATHER

NEW STEAM
PROCESS,

DYEING,

(Which we make a SPECIALTY), is superior to any other method, and less liable to shrink the feather than any other process known. Its results are most satisfactory in every instance, and especially so in the "Superior Blacks." We have the best facilities, and are the centre for fine work in New England. Particular attention paid to SHADING FEATHERS to match samples sent.

HELIOTYPE ENGRAVINGS.

These beautiful pictures are exact facsimile reproductions by the Heliotype Process of rare and costly engravings and etchings, from paintings by the old masters, and of the finest specimens to be found of modern French and English publications, including among others choice works of

Alma-Tadema.	Guido.	Murillo.
Michael Angelo.	Holman Hunt.	Parmegiano.
Rosa Bonheur.	Makart.	Raphael.
Bouguereau.	Meissonier.	Sir Joshua Reynolds.
Cabanel.	Sir Edwin Landseer.	Ary Scheffer.
Correggio.	Meyer von Bremen.	Schreyer.
Durer.	Millais.	Leonardo da Vinci.

The Heliotype is a photo-mechanical print, in which the precision and absolute fidelity of photography is combined with the permanent qualities of ordinary printing.

Nearly 400 Choice and Selected Engravings,

Costing from ten to fifty dollars each, have been copied by this process with unerring exactness. They are printed on heavy bevelled plate-paper, each one being 19x24 inches in size,

Equally adapted for Framing or Portfolio.

The works of the best engravers, and the most celebrated and fascinating pictures of the great ancient and modern painters, have thus been duplicated; and these exquisitely delicate masterpieces are sold for

FIFTY CENTS EACH.

BROWN S. FLANDERS, *Supt.*
 Feb. 15, 1881.

BOSTON FIRE-ALARM TELEGRAPH: SPECIAL NOTICE.

The fact that an alarm-box is located near their residence, and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire should be a matter of common education. The Board of Fire Commissioners recommend to all persons who may see this notice, that they make the necessary inquiries, to enable them, in case of need, either to get the key, and give an alarm, or to direct others to do so. *Time saved* in this way may sometimes prevent a conflagration.

In case of fire, follow these

DIRECTIONS.

Get the key to the nearest box to the fire.

Open the box; pull the hook all the way down *ONCE*, and let go.

Wait *one full minute* for the sound of the bells.

If you hear no sound, *pull again*, and the *third* time if you get no sound.

If you fail the third time, go to the next nearest box, and do the same there; but do not touch any other box if the nearest one gives the alarm.

After giving the alarm, remain a while if *possible* by the box, so as to direct the firemen to the fire.

SECOND ALARMS.—No person will give alarms for the same fire (after the first alarm has been given), without an order from an Engineer; and the person so ordered will be *sure* to go to the *same box* from which the first alarm was given, and report the same to the Chief Engineer. *If, however*, a fire breaks out while another is burning in a different section of the city, a *second* alarm can be given by a Police Officer without waiting for an order from an Engineer.

CAUTIONS TO PERSONS HOLDING SIGNAL KEYS.

1. Never open the box or touch the apparatus except in case of fire.
2. Never sound the alarm for a fire seen at a distance.
3. Be reasonably sure there is a fire before sounding the alarm.
4. Be sure your box is locked before leaving it.
5. Never let the key go out of your possession, except to some responsible person to give an alarm of fire; and be sure the key is returned.
6. *If you remove from your house, or place of business, return the key to the Fire-Commissioners' Office without delay.*
